

## School Improvement Plan | 2017-18

For the 2017-18 school year, our community at Kenny Community is dedicated to working together toward our school-wide goals, focused on increasing the academic achievement of all students and ensuring that our school is a great place for all learners.

### This year we are striving to achieve the following goals:

- Goal 1:** We will increase reading proficiency from 77% to 82% as measured by the MCA administered in Spring 2018.
- Goal 2:** We will increase math proficiency from 83% to 88% as measured by the MCA administered in Spring 2018.
- Goal 3:** The involvement of students and families at school wide events will be representative of our student population: 31% students of color, 30% free and reduced. We will track this with sign in: Kenny Kangaroos, March Magic, Family Reading Night, Science Expo, Glee, Music Performances, Variety Show, Student of Month, Turkey BINGO, Kenny Carnival, Art competitions, Meet the Teacher, Back to School Night, Math Night, Classroom Celebrations and Outings etc.

### In order to reach these goals, we'll be using the following strategies:

<b>Guided Reading</b>	Teachers will meet with teams to plan and implement guided reading. Teams are identifying specific elements of the practice profile to monitor in their PLCs.
<b>Guided Math</b>	Teachers will meet with teams to plan and implement guided math. Teams are identifying specific elements of the practice profile to monitor in their PLCs.
<b>Proactive Communication</b>	proactively get all families and students involved in school events and activities...meeting bi-weekly as a team to plan it...connecting families for transportation...on student of the month letters add a note for families to request transportation or a reminder for families to contact Suzie (family liaison) if they need transportation to the event
